## One of the Internet's most infamous trolls, Jaime Cochran/asshurtmacfags, is dead. RIP

Jaime was a cybersecurity expert who rose to fame as a prominent twitter troll by leading troll group #rustleleague before acting as prez of the GNAA for a little while. She and her associates caused copious amounts of drama by hijacking twitter accounts, practicing ruination on select targets, and generally instigating things. Despite being most well-known outside of infosec circles for causing trouble online, Jaime was a complete sweetheart with a great sense of humor. God called another angel back to heaven. :(
